The participants of the ‘Wings of Imagination’ training course are youth workers and project coordinators from Poland, Germany and Lithuania.

The main topics of our meeting are the possibilities of implementation of an innovative method which is called LARP (Live Action Role Playing Game) in informal education.

The purpose of the training course is to pass on the knowledge how to use LARPs in work with youngsters, how to create a professional, international project based on this method and how to connect other methods of informal education with LARPs effectively.

The methods of working were selected as a result of our experience from the projects we have run previously. These methods have evolved not only from theatre games played live, which were conducted as a part of Action 1.1 in Poland and abroad during the last few years, but also from many thematic workshops (pedagogy of theatre, pedagogy of experience, language animation, LARP, theatre make-up, scenography).

Our aim is also to build and strengthen cooperation with the other partners in this area. Moreover, the training course will effect in higher quality level of the projects. The participants will be trained and they will have the possibility to join the administration team of our website, which was created during the Action 1.1 project (Imaginaryrealms.org). Finally, they will prepare their own projects based on LARPs.
